Tacoma add a fuse

### **Tacoma add a fuse - goldnesfass.de**

The measurements taken at the air conditioning unit itself were the AC amps at 120VAC, whereas the amps reported by the Xantrex meter were on the other (battery) side of the inverter. The Xantrex meter reports the amps going out (or into) the batteries at 12VDC. Remember, the inverter itself is converting 12VDC to 120VAC. Roughly speaking, the amps on the 12VDC battery side are 10 times the ...

For your air conditioning, since the light is not even coming on when you press the air conditioning button it sounds like that is a separate problem. There could be another electrical short between the AC button and the compressor, your compressor could be malfunctioning, or you could be low on refrigerant. To test the electrical continuity, find the one wire going to your AC compressor and ...
