The Emerging Leadership Theory (Ahmed, 2012) states that leadership is both art and science. The first step in leadership is to build a foundation using the four pillars (4 Cs) of leadership:...

### **Is Leadership an Art or Science? - LinkedIn**

The Art and Science of Leadership Leadership is far from a science. Many would even argue that it is more of a form of art. Since effective leadership means different things to different people, I wanted to dive a little deeper into this debate to glean a better understanding as to what great leaders do.

Leadership Definition 9 "Leadership is the creative and directive force of morale. Munson, 1921 10. Leadership Definition 10 "Leadership is the art of imposing one's will upon others, in such a manner as to command their obedience, their confidence, their respect, and their loyal cooperation." United States Military Academy, 1925 11.

## **The art and science of leadership-Part One**

Like Ellen, I believe that leadership involves both science and art. The Science part for me, comes from processes and systems developed from the examination of how we think, psychological study. This kind of study has produced processes like systems thinking, appreciative enquiry, and emotional intelligence as well as tools like MBTI etc.
