Geometry Chapter 11 - Math Problem Solving - Home

The honors students will have additional homework problems that are more difficult, and on each test will have an extra page with more challenging questions. Note that the honors class is not an AP class. It is simply a more challenging version of the same course. The goal is for the classes to closely correspond to "Regular Geometry" and "Honors Geometry" classes at a good private school ...

Lewis structures, atom hybridization,
and molecular geometry are another
example of closely related topics. Thus,
understanding one topic can also help
you understand other topics. When
studying, try to identify how different
concepts are related. Underlying these
topics are basic concepts that must be
mastered, and mastered early on in the
course. One prominent example is
balancing chemical ...
