Gusher of Lies: The Dangerous Delusions of Energy Independence is a book by Robert Bryce which was released in 2008 and is published by PublicAffairs

Gusher of Lies - Wikipedia

Gusher of Lies addresses wind power, solar power, coal-to-liquids, nuclear power and natural gas, as well. All of these energy sources will, to one degree or another, be used in place of oil but the author sees only nuclear power and liquefied natural gas as having the potential to make much of a real impact on oil consumption.

In "Gusher of Lies", leading authority Robert Bryce debunks the idea that the US can free itself from foreign energy and why it will be importing oil, natural gas, coal, gasoline, uranium and other energy commodities for decades to come.This book exposes the ethanol scam for what it is: one of the longest-running robberies of taxpayers in US history.

Gusher of lies : the dangerous delusions of "energy ...

Good intentions pave the road to hell. The British did not wake up one day and say gee, we ought to use coal for no obvious reason.More like they found one day the supply of wood to be running low; with a supply

shortage in effect, the British used coal first in home heating and then used coke from coal in the iron industry. Necessity is the mother of invention, not preference.
