Institutions of higher education must be prepared to ensure the academic success of their students, no matter their hardships. It is imperative for institutions to acknowledge and address the digital divide present within their own student bodies and aid in the fight for social and economic mobility by empowering students through technology.

Here's How Colleges Should Help Close the Digital Divide ...
With the new year — and a new decade — underway, three key trends will continue to take hold in higher education. The conversation about digital transformation is shifting from "What is it?" to "How do we do it?" Campus leaders are rethinking the user experience in response to competition, financial pressure and a growing expectation that technology be optimized to improve education, boost productivity and simplify operations.
