The Micron ECO operates on the basis of "Depth Filtration"; dirt is driven through the filter bed and trapped in minute spaces between the particles of filter media allowing the cleansed water to pass through the filter's laterals and exit via the filter's Multiport valve.

### Micron ECO Media Filter - Waterco

Manufactured with high grade fibreglass and resins for durability, this filter will give you years of clean pool water. Depending on the choice of media, this medium filters out everything larger than 3 - 40 microns. Sand/media still remains the most popular choice on the market for their durability and simplicity in maintenance Pros:
