Geography is the study of places and the relationships between people and their environments. Geographers explore both the physical properties of Earth's surface and the human societies spread across it.They also examine how human culture interacts with the natural environment, and the way that locations and places can have an impact on people. . Geography seeks to understand where things ...

Global warming solutions, facts and information

2. The definition of urban agglomeration 2.1. The conceptions of urban agglomeration. As early as 1898, the British urban scholar, pioneer of modern urban planning and social activist Ebenezer Howard proposed the concept of the "town cluster" in his book Garden Cities of Tomorrow (Ebenezer, 1902).This concept deviated from the then popular spatial focus on cities themselves.
