1. Locke on Persons and Personal Identity: The Basics. Locke's most thorough discussion of the persistence (or diachronic identity) of persons can be found in Book 2, Chapter 27 of the Essay ("Of Identity and Diversity"), though Locke anticipates this discussion as early as Book 1, Chapter 4, Section 5, and Locke refers to persons in other texts, including the Second Treatise of Government.

Ray casting is the methodological basis for 3-D CAD/CAM solid modeling and image rendering. It is essentially the same as ray tracing for computer graphics where virtual light rays are "cast" or "traced" on their path from the focal point of a camera through each pixel in the camera sensor to determine what is visible along the ray in the 3-D scene. . The term "Ray Casting" was introduced by ...

Serotonin 5-HT2A receptors (5-HT2ARs) are widely distributed in the central nervous system, especially in brain region essential for learning and cognition. In addition to endogenous 5-HT, several hallucinogens, antipsychotics, and antidepressants function by targeting 5-HT2ARs. Preclinical studies show that 5-HT2AR antagonists have antipsychotic and antidepressant properties, whereas agonist ...

The course of acute grief does not follow a specific fixed-order series of stages. Grief is erratic, and the process of adaption to loss is somewhat unique in everyone. The course of acute grief tends to run from six to twelve months. For some, the time spent in grief is greatly shortened, and occasionally the process takes longer. Not feeling grief at all is an abnormal occurrence to great ...
