Scenario or task-based learning is a training approach designed with the participants in mind and aligns with the job performance learners are expected to achieve once the training is complete. New tasks or procedures are simulated during the training, immersing learners into situations where they are allowed to practice skills, safely learn from their mistakes and acquire valuable experience.

Top 7 Benefits of Scenario-Based Training Infographic - e ...

Scenario Based Training (SBT) and Single Pilot Resource Management (SRM) are similar to LOFT and CRM training. However, each is tailored to the pilot's training needs. These techniques use the same individual tasks that are found in Maneuver Based Training, but script them into scenarios that mimic real-life cross-country travel.
