Phlegm-Heat in Chinese Medicine - Giovanni Maciocia

There are 7 emotions we differentiate between in Chinese medicine. It is important to know that organs have strong relationships with one another, so if one is affected, the others are too. Over-Excitement. Excitement/mania is the main emotion of the heart. When someone experiences highs that are too taxing, they burn out their nervous system.

Here's The Strange Connection Between Your Emotions + Organs

As yin and yang continuously adjust to one another and transform into one another in a never-ending dance of harmonization, they tend to do so in a predictable pattern. In both Chinese philosophy and medicine, these stages of yin-yang transformation are referred to as the wu xing, the "five phases of transformation." They are listed below.
