Ford Stub axles. Rob showed me a couple of stub axles that he's had made. These allow the Triumph vertical link to use Ford hubs.

DollySprint.com

I will be embarking on a sprint engine rebuild this winter to bring the motor up to more modern standards and I am looking for any advice, pitfalls, must do's etc. Engine has original 62k miles with full service history but also comes with a report of bore wear on cylinder 3. Engine pull strong as is.

Head has been skimmed once in it's life.

Sprint fast road engine rebuild - The Triumph Dolomite Club

But when the Dolomite Sprint was launched in June 1973 it caused a stir. The smaller-engined Triumphs were reasonably torquey lower down the rev range, but pretty gutless up top. The 2.0-litre Sprint engine changed that, with power available at any engine speed.

Triumph Dolomite Sprint - Classic Car Reviews | Classic ...

Triumph have taken the popular Dolomite's body, luxury interior and suspension, and given it a 1,998-c.c., 127-b.h.p. net, 16-valve version of the 45-degree inclined four-cylinder engine originally developed by them for Saab and latterly used in 1,854-c.c., 8-valve, 91-b.h.p. net trim for the ordinary Dolomite.

Sixteen-valve Dolomite Sprint from Triumph - Motor Sport ...

Triumph Dolomite Sprint (1973-80) Considering the debacle that was British Leyland during the 1970s, it's miraculous that any cars at all were produced by this troubled organisation, let alone something with the character of the Triumph Dolomite Sprint. Leyland had long sought an answer to Ford's high-profile Twin-Cam Escort and the BMW 2002.
